@katimichel

Project Manager, Designer, Developer

SKILLS

– Agile and Waterfall Project Management

– Front and Back-End Development (HTML, CSS, JS, Jekyll, Python, Django)

– Research, Design, and Development Sprints

– Git (collaboration, staging, deployment)

RELEVANT EXPERIENCE

UNITED METHODIST CHURCH

Project Manager/Administrative Assistant

I help church members with tech-related issues such as: setting up a church website and social media presence; conducting a research and design sprint to create a mobile app prototype, including professional-level, on-site user testing; assisting with implementation of a new presentation screen system

CO-OPERATIVE FINANCIAL SERVICES/BRITANNIA BUILDING SOCIETY

Project Manager/Consultant

I took part in a number of projects surrounding intricately stage-planned consolidation of mortgage IT operations (sale, processing, and customer service via branch, contact center, and internet channels) after merger of CFS and Britannia; facilitation of problem structuring methods workshops with senior stakeholders; delivery of Quality Assurance Review; hardware and software involved: service-oriented architecture, Oracle Java platform, .Net, Apache, Citrix, VMWare, Blade, IBM components, TCP/IP and other protocols, Java, SQL

Education

M.Sc. Project Management, Lancaster University Management School, Lancaster, U.K.

B.A. Communication, Pittsburg State University, Pittsburg, Kansas,

Community

DjangoCon Organizer
